

High Performance Acrylic Metal Coating

Product Description

A new generation water based 100% acrylic long life, interior, exterior coating for high traffic areas that need a washable and durable coating.

Features/Benefits

- Highly durable and UV resistant
- Highly washable, comfortably meets the requirements of the very harsh SABS and ASTM scrubs resistant test methods
- Excellent adhesion
- Very good flow and levelling
- Resists Algae and Fungus growth
- Virtually odour free
- If correctly applied to a properly prepared substrate the product has a life expectancy of more than 10 years
- VOC < 130 gm/ltr

Application Areas

- Primed metal substrates

Surface Preparation

Rusted Metal: Affected areas need to be cleaned back to bright metal and primed with Duracoat Royale Rust Guard Metal Primer

New Metal: Surfaces need to be degreased to remove the manufacturer's grease protective layer. After drying, the whole substrate is coated with Duracoat Royale Rustguard Metal primer

Application Procedure

- Always stir well before use
- Product is ready to use, do not thin.
- Apply a generous coat of High Performance Acrylic Metal Coating to the area which needs protection
- Allow to dry for 4-6 hours before recoating
- Apply a second generous coat

General

- Do not apply on exterior if it looks like rain will occur within 4-6 hours of application
- This is ready for use un-thinned, thinning with water will reduce its hiding power
- 2 coats of this product are used for best results
- Although the spreading rate will vary with porosity and type of substrate
For uncoated new work on 8-10 Sq.Mt/Lt for the first coat and 10-12 Sq.Mt/Lt for subsequent coats and for when applied to sealed, previously painted substrates
- Application equipment clean up is with water

Shade Range

- Available from BS 4800 and Duracoat Classic fandeck. Special shades can be made on request

Pack Sizes

- Available in 1 ltr, 4 Ltrs and 20 Ltrs.

Precautions

- Ensure good ventilation during application and drying
- Avoid contacts with skin and eyes
- After contact with skin, wash immediately with plenty of soap and water. In case of contact with eyes, rinse immediately with plenty of water and seek medical advice.
- Keep out of reach of children
- Meets the latest EU VOC regulations
