

Duracoat Clearsil

Product Description : Duracoat clearsil is an excellent water repellent agent for many absorbent mineral substrates, such as bricks, sand-lime brick, natural sandstone and mineral plasters. Duracoat Clearsil reduces the capillary absorption of the building which it has penetrated, but does not clog pores or capillaries. There is therefore little or no impairment of the building material's ability to "breathe".

Features & Benefits:

- Water-based sealer for exterior and interior natural stone and mineral plasters
- Ideal for interior and exterior walls
- Protects from wear caused by atmospheric agents
- Deeply penetrates the material while still allowing the surface to breathe
- highly durable and effective beading effect
- tack-free drying
- provides good adhesion for paints
- water-based and environmentally compatible
- Attractive natural effect : does not alter surface appearance
- Long lasting. Remains effective up to 10 years

Application : Brush. Two "wet on wet" coats are needed to ensure complete coverage. If it starts to rain, stop treatment and cover the impregnated areas

Thinning : **Do not thin.** Product is ready to use.

Cleaning : Clean equipment with water.

Spread Rate : 6-10 sq. mt/ltr depending on the porosity of the surface.

Pack sizes : 1 ltr, 4 ltr and 20 ltr
